Southern Nevada Public Land Management Act ROUND 14 Nomination Package Requirements for Hazardous Fuels Reduction and Wildfire Prevention

NOTE: In order to extend the benefits of the SNPLMA funding program and to allow partner agencies to complete previously approved projects, the SNPLMA Executive Committee has agreed to postpone the opening of <u>Round 15</u> until September 2014.

I. <u>ELIGIBILITY REQUIREMENTS:</u>

The Southern Nevada Public Land Management Act as amended, Section 4(e)(3)(ix) directs funding from the special account to be expended for:

".. development and implementation of comprehensive, cost-effective, multi-jurisdictional hazardous fuels reduction and wildfire prevention plans (including sustainable biomass and biofuels energy development and production activities) for the Lake Tahoe Basin (to be developed in conjunction with the Tahoe Regional Planning Agency), the Carson Range in Douglas and Washoe Counties and Carson City in the State, and the Spring Mountains in the State, that are: (I) subject to approval by the Secretary; and (II) not more than 10 years in duration."

Hazardous fuels reduction and wildfire prevention (HFRWP) projects may include project level planning, fuels reduction treatment activities, biomass utilization, and biofuels energy development and production activities.

HFRWP projects may be nominated by entities that are specifically named in the three multijurisdictional plans, and/or are signatories to those plans for projects on lands in the Lake Tahoe Basin, the Carson Range in Douglas and Washoe Counties and Carson City in Nevada and the Spring Mountains in Nevada.

II. ROUND 14 NOMINATION LIMITATIONS AND DIRECTION

- I. Nominations are limited to two submissions per entity per category. The only exception to this is the Hazardous Fuels category where eligible entities are limited to two submissions per entity per legislative area (the Lake Tahoe Basin, the Carson Range in Douglas and Washoe Counties and Carson City, and the Spring Mountains in Nevada.).
- II. Entities are to limit nominations to the lowest cost option for a viable project. In addition, please ensure that the projected cost estimates are as accurate as possible. The Executive Committee has recommended a greatly diminished role for Special Account Reserve (SAR) fund requests in the future.
- III. Nominations are limited to one project location (e.g., rehabilitate one campground, not two or three; one physical location/facility within an agency's or entity's management area), except in the Hazardous Fuels category. See Section IV.I.1 for information regarding siting of the project at the identified physical location within the management area.

- IV. Except where provided by the SNPLMA legislation relative to the ENLRP category, nominations may not identify non-eligible Federal agencies, organizations or other entities as proposed to receive project funds through contracts and/or agreements to implement or assist in implementing the project.
- V. The Executive Committee reiterated that the SNPLMA Strategic Plan is the guiding document for all nominations. In addition, the Executive Committee identified three emphasis areas of equal importance for Round 14. The three areas are:
 - 1. Health and human safety
 - 2. Recreational opportunities in underserved areas
 - 3. Landscape scale projects for sensitive species or their habitats

III. GENERAL FORMATTING AND SUBMITTAL REQUIREMENTS

- A. Nomination period duration is 60 days, beginning Monday, September 10, 2012 and ending Friday, November 9, 2012. Nomination packages must be received by close of business, 4:30p.m. Pacific Time on November 9, 2012. Late submissions cannot be considered.
- B. All **Hazardous Fuels Reduction and Wildfire Prevention** nomination packages are to be submitted to:

Kelly Ross, SNPLMA Program Manager Southern Nevada District Office Bureau of Land Management 4701 N. Torrey Pines Dr. Las Vegas, NV 89130

- C. Submit one hard copy and one electronic copy (CD) of the nomination. Text should be created in MS Word '97 or higher, with a 1" margin on all sides, printed double sided on 8 ½" X 11" paper, including maps. The electronic version must match the hard copy version. Hard copies should be clipped or stapled, not hole-punched or bound.
- D. All images should be integrated into the Word document to create a single electronic document. Photographs should be grouped together, two per page, at the end of the document, rather than scattered throughout the text. Photographs, maps, and letters should be scanned in .jpg format and inserted into the text document.
- E. Original .jpg images of photos and maps should also be included separately on the CD, so they are readily available for use in the nomination database for production of the Executive Summaries and for use in PowerPoint presentations produced during the nomination cycle.
- F. All nomination packages, including disks and CDs, become the property of the BLM Southern Nevada District Division of SNPLMA Acquisition, Improvement and Conservation Programs and will not be returned.
- G. All instructions, requirements and due dates must be met for the nomination to be accepted. However, time permitting after the nomination due date, nominators will be notified if their nomination package is incomplete or otherwise does not

meet requirements and allowed a brief period to provide missing or updated information. The SNPLMA Implementation Agreement and decision memos regarding changes in criteria for certain categories and other IA changes can be found at: http://www.blm.gov/nv/st/en/snplma/implementation.html

IV. ROUND 14 NOMINATION CONTENT REQUIREMENTS -- ALL CATEGORIES

- A. Indicate the project timeframe in years and months. Projects may not go beyond the timeframes approved by the Executive Committee: Land Acquisitions = 2 years; ENLRP = 4 years; PTNA, Capital Improvements, MSHCP, and Conservation Initiatives = 5 years; Fuels = 6 years. Please do not indicate definitive dates in your application, as delays in processing funding instruments can affect your ability to initiate projects.
- B. A cover page including the following: the submitting entity's name and logo, if applicable; the SNPLMA round and category; the project title which reflects and captures the nomination content; the amount requested; contact person/project manager with phone, fax, and e-mail.
- C. Include a latitude and longitude location reference point for purposes of locating the project area on a map on the SNPLMA website, using degrees, minutes, and seconds (e.g. N 36° 52' 45" /W 112° 12' 10").
 - i. Identify the Congressional District Number in which the project is located.
- D. Nominations must clearly describe the relationship of the nominated project to previous phases and anticipated future phases, if any. Provide the estimated total cost of all phases of the project; confirm that the current nomination will result in a stand-alone, viable project and acknowledge that there is no guarantee or expectation of funding for future phases. The project title may only include the term "phase" when the project is a direct phase of a previously approved SNPLMA project, or if the project is the first phase of a series of stand-alone future nomination phases.
- E. Nominations are to address whether or not there will be contributed funds directly applicable to completion of the project within the timeframe and scope of the proposed project. Funds from other sources to complete work prior to the project or for post-completion activities such as operations and maintenance or later enhancements are not considered contributed funds.
- F. If either an in-kind or cash contribution is identified, a written commitment must be documented on official letterhead or stationery of the contributor and submitted as part of the nomination. In addition, the Estimated Cost Worksheet should reflect the amount of the contribution in the space provided at the bottom of the form.
- G. In-kind contributions include volunteer labor, professional services, or contributed material and equipment. Project nominations that identify in-kind contributions must submit a breakdown of the valuation of these contributions. The breakdown of these contributions may include:
 - (1) Volunteer labor valuations should be computed at the rate used by the Department of the Interior, which is currently \$21.36 per hour;

- (2) Salaried employees' actual hourly rates plus the value of any fringe benefits received:
- (3) Actual costs for material, equipment and supplies.

Agency/entity overhead costs may not be included in determining in-kind contributions.

- H. Nominations in all categories must contain a specific statement of the purpose of the project; that is a "Purpose Statement." The purpose statement must address the format below:
 - 1. Who: (agency/entity) will [verb] (e.g. construct, build, refurbish, restore, excavate, design, conduct, acquire, replace, upgrade, etc.)
 - 2. What: [noun] (e.g. welcome center, trail, park, picnic area, hazardous fuels reduction, archaeological resources, training classes, +/- 230 acres of land, etc.)
 - 3. Where: (e.g. physical location of project within agency/entity management area, County, District, east side of mountain X, etc.)
 - 4. Why: [prepositional phrase describing the outcome of the project] (e.g. to address the recreational needs of the community, to improve safety, to enhance/improve/increase recreational opportunities, for protection/preservation/restoration of resources, to reduce fire risk, to improve environmental awareness of teachers/students/public, for improved public access, etc.)
- I. Following the purpose statement, the nomination must then include the project deliverables as defined below. The purpose statement along with the deliverables identified to accomplish the purpose will be used to determine project completion and acceptability of future scope change requests. There are three categories of deliverables described below:
 - <u>Primary Deliverables:</u> Primary deliverables are those that must be completed at a minimum in order to complete the project and accomplish the purpose. Identify the size, quantity, anticipated site and configuration, and whether or not those elements are contingent upon the final results of design, planning, cost estimates, public scoping or other studies, analyses, or reports.
 - Examples:
 - Refurbish or replace 3 to 5 picnic tables in picnic area A and repair the roof on 2 picnic pavilions;
 - Acquire title to Property C, approximately 250 acres with riparian habitat and wetlands of +/- 100 acres;
 - o Construct a non-motorized trail 6 feet wide from point X to point Y
 - Conduct 5 Interagency Law Enforcement saturation patrols on Federal lands, location to be determined contingent upon urgency of need for protection of people and resource values.
 - Anticipated Deliverables: Anticipated deliverables are those that are desirable and beneficial, but not minimally necessary to completion of the proposed project and project purpose. Their inclusion will be based on the results of final planning, design, cost estimates, public scoping, or other studies, analyses, or reports. The cost estimate for the project should include the cost of completing anticipated deliverables that are likely to be included unless the

results of such studies, analyses, or reports determine that they should not be developed. (See the first two examples below.)

The cost estimate should not include the cost of anticipated deliverables that are planned for inclusion only if sufficient funds remain after completing the primary deliverables. This is to avoid inflating project funding requests over the lowest-cost option to address the cost of components/elements that are not necessary to completion of the project and project purpose. (See the third example below.)

• Examples:

- Construct 1 new picnic pavilion in picnic area A pending public scoping results that indicate the pavilion will be utilized;
- Acquire water rights if available for Property C pending review of a water rights ownership report and determination of the quantity that can be put to beneficial use;
- Include lighting along the trail from point X to point Y if final cost estimates for construction allow inclusion within the amount requested to complete the project.
- <u>Standard Deliverables:</u> Standard deliverables are those actions/activities that are generally accepted by the agency/entity, and/or by industry standards as necessary to complete the aforementioned Primary and Anticipated deliverables. Standard deliverables can be identified in the project workplan rather than in the nomination, but the cost of completing the standard deliverables must be reflected in the project cost estimate.

• Examples:

Deliverables which are typically addressed in the cost estimate worksheet but not always identified as deliverables in the nomination that would be standard deliverables are:

- NEPA for a land acquisition (vs. NEPA that is a primary deliverable for other types of projects);
- o Appraisal to determine market value of rights in land to be acquired;
- o Boundary survey to determine acreage; and
- Surveys for trail construction

Other examples that may not be line items in budget estimates or identified in the nomination but that must be completed to accomplish the Primary or Anticipated Deliverables and therefore would be defined as standard deliverables are:

- o Public scoping:
- o Developing scopes of work for contracts;
- Writing a request for bids;
- o Submitting and obtaining management approval of project documents;
- o Submittal for review and approval by agency management; and
- o A specialist's review of project documents.
- J. The Executive Committee recently authorized the use of a list of Performance Measures tied to the SNPLMA Strategic Plan. Nominations in all categories

should identify all relevant performance measures with a minimum of one. (A link to the SNPLMA Performance Measures is available in the "Call for Round 14 Nominations" on the SNPLMA website at http://www.blm.gov/snplma.) The performance measures are each tied to a goal, objective and sub-objective in the SNPLMA Strategic Plan (also available on the SNPLMA website). To meet this requirement, the nomination must describe accomplishments in the form of "outcomes and outputs" that are linked to specific performance measures. Use the following as an example:

<u>Strategic Goal 2, Objective 2.5:</u> Promote Education – Improve the public's connection with natural, cultural and recreational resources with an emphasis on youth education.

- Outcome: Increase visitor awareness and appreciation for the Mojave Desert through educational programs and products. Achieving the following outputs will accomplish this outcome:
 - Output (Primary or Anticipated Deliverable): Conduct 15 education programs for teachers and students in Clark County. The SNPLMA Performance Measures include:
 - Performance Measure O7 Number of Interpretive or Educational Presentations Given (each presentation is reported as one unit).
 - Performance Measure O5 Number of Outreach Contacts Made (each individual reached is reported as one unit).
 - Output (Primary or Anticipated Deliverable): Update 5 visitor center static displays by replacing/upgrading them with multi-media interactive displays. The SNPLMA Performance Measure is:
 - Performance Measure O6 Number of New Interpretive or Education Publications/Signs Produced (each display is reported as one unit).
 - Output (Primary or Anticipated Deliverable): Hire 1 temporary interpretive ranger to deliver outdoor educational programs at the Mojave Max desert tortoise habitat, at the Red Rock Canyon Visitor Center on weekends and holidays from the months of October through May for three years. Unit of measure will be the number of programs delivered and the approximate number of public attendance recorded at each session. The number of programs could range from 60 to 80 each year. SNPLMA Performance Measures include:
 - Performance Measure O7 Number of Interpretive or Educational Presentations Given (each presentation is reported as one unit).
 - Performance Measure O5 Number of Outreach Contacts Made (each individual reached is reported as one unit).
- K. Identify the level of readiness for the project in terms of staffing, resources, NEPA, initial planning, inter-agency coordination, SHPO consultation, etc. that will allow your agency/entity to request funds and begin implementing the project within one year of notification of funds availability. Beginning this round, the Executive Committee may look favorably at projects that are most prepared to

begin implementation.

NOTE: Implementation of projects (i.e., starting actual project work) within one year of notification of funds in the Special Account became a requirement beginning in Round 13, as part of a Decision Memorandum signed by the Executive Committee on August 1, 2011.

NOTE: Entities/agencies are not required to complete a "Performance and Capacity Worksheet." However, the subgroups, the Partner's Working Group, and the Executive Committee will be provided with SNPLMA database information on past performance and this may be factored into decisions for funding recommendations.

A. <u>Hazardous Fuels Reduction and Wildfire Prevention Ranking Criteria</u>

Five criteria will be used by the subgroup to evaluate, score and rank nominations in this category. Planning projects are evaluated on the anticipated results and methodology of the resultant project. The subgroup reserves the right to elevate the top ranking project from each geographic area in its recommendation. The total points available for each criteria is shown to the right of the criteria. The factors used to score the criteria are listed below it with the points available for each factor. The factor scores are cumulative to make up the total points available for each criteria. Unless otherwise indicated in the factor, score each factor on a sliding scale.

1. Improves public health and safety.		Points = 21	
Factors:			
ractors.	A. Addresses immediate public health and safety.	8	
	D. Drotagts housing and other structures (treatments that are	5	

A. Addresses immediate public health and safety.	8
B. Protects housing and other structures (treatments that are	5
directly adjacent to structures/defensible space receive full points,	
projects farther removed receive fewer points).	
C. Project is a current priority in the associated 10-year	5
multijurisdictional fuels plan.	
D Promotes protection of water supply systems and source water	3

2. Considers cost-saving strategies Points = 17

Factors:

A. Describes measures to minimize costs while meeting all	6
applicable laws and regulations.	
B. Describes costs in relation to values at risk (e.g., irreplaceable	5
historic properties, subdivisions, critical wildlife habitat)	
C. Has identified committed non-SNPLMA sources of funding or	6
in-kind contribution in the development and/or implementation of	
the project.	

3. Provides for bioma	ss utilization and/or biofuels energy development and	Points = 3
production activities.		

Factors:

A. Includes funding to provide for biomass and/or biofuels energy	3
development and production activities and demonstrates innovative	
methods for biomass utilization.	

4. Implementation Projects - Protects the integrity of significant resource	Points = 17
values or improves the quality of the environment.	

Factors:

A. Minimizes environmental or resource impacts.	2
B. Reduces the extent or impact of resource concerns (e.g.,	2
overstocked stands, insect mortality of trees, disease outbreaks).	
C. Improves habitat for and minimizes impact to species of	2
interest and T&E species.	
D. Avoids impacts to soils and riparian and wetlands areas.	2
E. Promotes a healthy and sustainable landscape.	2
F. Has resulting secondary resource benefits.	2
F. Protects cultural and historic resources.	2

H. Includes broadcast prescribed fire.	3

5. Demonstrates sound project management and quality control measures | Points = 17

Factors:

A. Project goals and implementation processes are clear, measurable, achievable, and demonstrable.	2
B. Project demonstrates sound science and management techniques in implementation and evaluation, monitoring, and analysis.	2
C. Project proponent has demonstrated capability to implement and complete previous projects on time and within budget.	4
D. Project proponent has the capacity to implement this project in a timely manner (contractor and staff availability, no backlog of current projects, etc.).	4
E. Is a phase or related component to a previously funded SNPLMA project (not including a PPP project)?	3
F. Is the project multijurisdictional (is the treatment on multiple jurisdictions and shares resources)?	2
TOTAL POSSIBLE POINT	$\overline{\Gamma S} = 75$
